

TIPS

imagine
crafts

Techniques:

- *Fine Mist:* Spray 12 inches from surface, allowing mist to float down onto the project.
- *Medium Mist:* Tip bottle and spray at 45 degree angle. Great for creating spots of color.
- *Large Spot Texture:* Extend forefinger slightly over the top of spray head when applying pressure.
- Create custom backgrounds and accents by layering multiple colors of Fireworks!™
- Spray over old patterned paper to soften designs or patterns.
- Use with stencils for creating patterns. Place stencil face-down after spraying for a reverse image.

Tips:

- Shake well so that the ingredients are mixed
- Protect table top surface before spraying, if desired
- Shake often while creating multiple projects
- Wipe spray head after use to prevent possible nozzle clogging

Fireworks!

Fireworks! Facts:

- Available in 24 colors; coordinates perfectly with Tsukineko's Memento ink family
- Easy to use; shake, point and spray
- Fast drying on most paper surfaces
- Water-based, acid free, non-toxic
- Copic® Marker compatible (will not bleed!)
- Spray lightly for a finishing touch
- Color intensity increases with multiple applications
- Get bold- Fireworks!™ is striking on dark paper
- Pair Fireworks! with Memento inkpads for fabulous monochromatic effects
